## SUMMARY

Aspiring DevOps engineer with a keen interest in cloud technologies like AWS and Docker. Well-versed in various web development tools such as HTML/CSS, Javascript, MySQL, and Express.js. Driven Full Stack Engineer with a firm belief that education never stops, especially in the ever dynamic tech industry. Demonstrated experience creating web apps utilizing server routing, API calls to a private database, and jQuery. Graduate of Bachelor's of Science program in Computer Engineering at Boston University and currently pursuing a Full Stack Web Development certificate at Georgia Tech. Equipped with skills to create products, adapt quickly, and find creative solutions to problems.

## TECHNICAL SKILLS

**Languages:** Javascript, HTML/CSS, SQL, C/C++, Python, C#, Go

**Applications:** Node.js, React AWS, Docker, Linux, Git/Github, .NET, GNU Debugger (GDB), MySQL, MongoDB

## PROJECTS

**Searcherr** | [github.com/BogacSabuncu/Searcherr](https://github.com/BogacSabuncu/Searcherr) | [bogacsabuncu.github.io/Searcherr/](https://bogacsabuncu.github.io/Searcherr/)

- This app is a browser job search tool. It shows you job postings one by one, where you can view different aspects of a job: the company, position, salary range, job description and even the location.
- Was the project manager and also implemented the backend code for API calls to receive job postings
- Javascript, jQuery, HTML/CSS, Firebase

**Nibble Neighbor** | [github.com/BogacSabuncu/NibbleNeighbor](https://github.com/BogacSabuncu/NibbleNeighbor) | [nibbleneighbor.herokuapp.com/](https://nibbleneighbor.herokuapp.com/)

- Nibble Neighbor is a full stack app that lets the user create an account and then search and save recipes to their profile. The search is done by making an API call to Edamam to get recipes and then the results are displayed to the user on the page. When the user saves a recipe the necessary information is saved to a MySQL database where the information can be retrieved about a specific user when needed.
- Was the project manager. Also implemented the back-end code for routing with Express.js, data storage with MySQL, and the front-end code for user page.
- Javascript, jQuery, Node.js, Express.js, MySQL, HTML/CSS

## EXPERIENCE

### **IT Support Specialist**

2018 - Present

### **SRS International Group, LLC**

Atlanta, GA

Installed and configured appropriate software on company computers. And helped to manage IT problems. During this job I have acquired well established communication skills from the interactions with my boss and also attention to detail in my work.

## EDUCATION

### **Fullstack Web Development Bootcamp: Georgia Institute of Technology, Atlanta, GA**

July, 2019

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

### **Bachelor of Science in Computer Engineering: Boston University, Boston, MA**

May,

2018

Earned a 4 year degree of Bachelor's of Science degree in Computer Engineering from Boston University.
